**DOM CARLOS HOTELS AWARDED  
"FORESEE GOLD CERTIFICATE"**

---

The Dom Carlos Park and Dom Carlos Liberty have both been awarded the ForeSee Gold Certificate in recognition of the excellent standards achieved in Food Hygiene and Food Safety Management based on the principles of HACCP.

The Dom Carlos Park received the award in April 2008 and the Dom Carlos Liberty in January 2009. In order to receive the award both hotels had to achieve a score of over 80% on three successive rigorous audits as established by ForeSee Food Safety.

ForeSee Food Safety, an international company based in the United Kingdom, is represented in Portugal by LusoCristal Consulting, partner with the Portuguese Hotel Association in all Food Hygiene and Safety related matters.

The Gold Certificate is based on results achieved for the Food Safety Risk Management System which not only encompasses the application of HACCP principles but also the 4C concepts of Food Hygiene and Best Practice – Cross Contamination, Cooking, Chilling and Cleaning – developed by the Food Standards Agency in England and recognized by the Portuguese Food Safety authorities.
